

Parent Pick drop off/pick up will be different starting Wednesday, January 24 due to construction. The process will seem backwards from what we normally do. Please enter from Windsor Harbor and turn into the IC parking lot from the north entrance. Please go down the middle lane, or the outer lane closer to the highway. You will proceed all the way down in front of the IC gym entrance. We will be running two lanes in front of the IC gym entrance. We have to do this to keep traffic from backing up on Windsor Harbor. Since we will have two lanes, Dr. Carlton or Mr. Holland will dismiss the vehicles to leave. We want to make sure all students are loaded in their vehicles prior to anyone leaving. You will exit at the south exit on to 61-67. Please look at the diagram below to help. Red rectangle is area that is off limits due to construction. Blue rectangle is our loading area for parent pick up.
